PROFILE SUMMARY

Hands-on Project management/Software Quality Assurance Tester accustomed to working in complex, project based environments. Expertise in project management, testing automation, scripting and documentation and defect tracking. Logical and innovative professional with over 4 years of experience in Project management, designing, developing and implementing test plans, test cases and test processes. Strong attention to small details for accurately identifying all problems and bugs quickly and effectively. A true team player always seeking the opportunity to provide outstanding, clean code in a collaborative environment. Dedicated to self-development, ensuring consistent best practice and first-class results.

KEY SKILLS

Soft Skills: Communication, Problem-solving, Attention to detail, Analytical, Critical Thinking, Team Collaboration, Leadership
Techniques: Manual and Automation Testing, Regression Testing, Agile Methodology, API and UI Compatibility Testing, Performance Testing, Negative Testing, Test Case Development, Defect Identification, Bug Reporting and Tracking.
Tools: Postman | JMeter | Selenium| JIRA | CSS | JavaScript | Java | SQL | GitHub | Kubernetes

WORK EXPERIENCE

PALMPAY LIMITED
Software Test Development Engineer   July 2023 – Till date

- Develop testing initiatives resulting in a 30% increase in testing delivery time, optimizing team efficiency.
- Manage testing processes across 20+ gateway channels, leading to a 20% reduction in bug leakages and enhancing product reliability.
- Establish and maintain a comprehensive knowledge base of common issues and solutions, reducing troubleshooting and issue resolution time by 60%.
- Collaborate effectively with cross-functional teams to ensure high-quality product features, contributing to a significant improvement in overall product quality.
- Responsible for connecting payment channels and conducting channel routing testing in Africa, ensuring fast and high-quality delivery of product requirements.
- Responsible for designing channel docking interface test cases and executing interface tests, configuring mock platforms, and conducting functional testing of channel business links.
- Independently responsible for project testing, promoting the standardization of research and development processes, connecting cross-team products, and promoting project research and development, testing, and online work by developers.
- Track and locate online issues, follow up on repairs and verification, and develop quality prevention strategies to promote and implement them.
- Collaborate with local technical teams to use testing tools to improve channel access testing efficiency.
- Worked closely with the development team, to see the planning, design , and implementation of software projects currently on going.
- Managing java/java EE application development while providing expertise in the full software life-cycle, from concept and design to testing.

URIDIUM TECHNOLOGY
Software Tester/QA Engineer   January 2021 – July 2023

- Developed and executed test plans, test cases, and for web and mobile applications, ensuring maintenance of test environment and test data.
- Contributed to testing effort and review of 100+ user interfaces to ensure functionality and adherence to design guidelines, resulting in a 30% improved product user experience.
- Created test cases to identify, document, and report bugs for a fix, reducing customer support workload by 40%.

- Worked within an agile team consisting of software engineers, product managers, and UX designers to ensure the delivery of
- high-quality product features, resulting in a 31% reduction in the number of defects reported in subsequent releases.
- Created and maintained a knowledge base of common issues and solutions, reducing the time required to troubleshoot and
- resolve issues by 40%.
- Participated in sprint planning for testing efforts and retrospectives to support agile development processes.
- Cooperating with the back-end developer in the process of testing the Restful Api using postman.
- Leveraged knowledge of Jira for test documentation and report generation.
- Active participation in sprint planning, analysis on the specifications provided.
- Creating & Executing Test cases for different functionalities.
- API Testing, Integration Testing, Regression Testing, Performance Testing using Jmeter.

VFD BANK
Software Quality Assurance Engineer   **February 2020 – January 2021**

- Created test cases to identify, document, and report bugs for a fix, reducing customer support workload by 40%.
- Assisted in the creation and execution of test plans and test cases for web and mobile applications, ensuring adherence to quality standards and project requirements.
- Conducted manual testing on various software products, identifying bugs and reporting issues using defect tracking tools like JIRA, improving product stability by 20%.
- Collaborated with senior testers and developers to perform functional, regression, and UI testing, helping to ensure seamless integration of new features and updates.
- Ran API tests using Postman to verify data exchange between client and server applications, detecting and reporting any inconsistencies.
- Documented test results and provided clear and detailed bug reports, ensuring timely resolutions and contributing to an overall reduction in production issues.
- Participated in Agile sprint planning meetings, understanding project goals and testing requirements to contribute to the success of each sprint cycle.
- Reviewed software requirements and specifications to ensure complete understanding of the features being tested.
- Supported the QA team in setting up and maintaining test environments, ensuring consistent and stable testing conditions.
- Gained experience in cross-browser testing, verifying software functionality across different platforms (e.g., Chrome, Firefox, Safari) for optimal user experience.
- Developed and maintained clear documentation of test procedures, ensuring knowledge sharing and process improvement within the team.

EDUCATION

EKITI STATE UNIVERSITY , NIGERIA   **October 2019**
BSc. Geology
