Cypress 14

Start your Journey with these 10 essential Cypress Commands

(1) `cy.get('selector')`

Get one or more DOM elements by selector or alias.

```
cy.get(selector)
cy.get(alias)
cy.get(selector, options)
cy.get(alias, options)
```

Cypress 14

Start your Journey with these 10 essential Cypress Commands

(2) `cy.contains('text')`

Find the DOM element containing the text. DOM elements can contain more than the desired text and still match.

```
cy.contains(content)
cy.contains(content, options)
cy.contains(selector, content)
cy.contains(selector, content, options)
```
